

MARK MUTUKU KYALO

Software Developer

Nairobi, Kenya | 0701 388 400 | markkyalo226@gmail.com

PROFILE

A Software Developer, graduate from KCA University with hands-on industry experience gained through a technical attachment and ongoing technical internship at iOSoft Solutions. Skilled in Java, web development, databases, the .NET framework, and mobile application development. Quick to learn, detail-oriented, and comfortable working in team environments.

WORK EXPERIENCE

Technical Intern

April 2026 – Present

iOSoft Solutions, Nairobi, Kenya

- Continued on as a Technical Intern following the technical attachment, taking on greater responsibility in ongoing software development projects.
- Collaborate with developers on real-world projects, applying knowledge of web technologies and databases.
- Support software debugging, quality assurance, and documentation tasks.
- Work within an agile team using Git/GitHub for version control and collaborative code management.
- Apply hands-on experience with REST API integration and database design practices.

Technical Attachee

January 2026 – April 2026

iOSoft Solutions, Nairobi, Kenya

- Participated in the development and testing of software applications in a professional environment.
- Collaborated with developers on real-world projects, applying knowledge of web technologies and databases.
- Assisted with software debugging, quality assurance, and documentation tasks.
- Worked within an agile team using Git/GitHub for version control and collaborative code management.
- Gained hands-on exposure to REST API integration and database design practices.
